MiComPro Ltd.

Micompro Expands Team

London, ON, January 18, 2010 - - For Immediate Release

Micompro Ltd. is pleased to announce the hiring of Eric Clinton as a Senior Programmer Analyst effective January 18, 2010. He will be working in our Product development department, focusing on delivering software solutions to our customer base.

“Meeting and exceeding our customer expectations is our key focus,” said David Geoffrey, President of Micompro. “This addition to our development team better positions us to deliver superior application solutions to our customer base. Micompro is committed to enhancing our Products to face today’s competitive environment. Product development is a key element of the PartsHandler product.”

Mr. Clinton comes to Micompro with 25 years experience in the Automotive industry. This experience includes working with many different development tools, development procedures and programming standards. Mr. Clinton’s development experience and Micompro’s goal to deliver superior software solutions to our customer base will benefit our customers. Mr. Clinton will become an integral component of Micompro’s Product development strategy. Micompro continues to add experienced resources to assist in the growth and development of PartsHandler.

Micompro is a Software Developer, established in 1990, specializing in the Distribution Industry with customers across Canada and the United States with the majority of customers in the automotive distribution after market. Micompro develops and markets **PartsHandler** and **Interact** software solutions for the Distribution Industry.
